TUNE-UP CHECKLIST //

Set-up checklist

Test your homepage at pagespeed.web.dev

Check Core Web Vitals:

- LCP (aim < 2.5s)
- Interaction Latency (aim < 200ms)
- CLS (aim < 0.1)

Optimize

- Compress large images
- Minify CSS and JavaScript
- Enable caching
- Remove unused scripts

Send the results + tips to your dev team.
Make final changes before Wed 7th May.

Pro Tips

- Test both desktop and mobile
- Lower times = higher grid positions
- We assess from the homepage only
